About Me

A person who admires software engineering and fall in love with the web. Surely not web developer enthusiast, because my passion is on software engineering. Interest in testing and automation. Have experience with PHP (CodeIgniter), MySQL, and javascript. I also have basic usage on java in 2018, using a servlet. Outside of programming, I am interested in art, designing.

Education

SD 04 Sugihan - 2006

Sugihan Tenganan Semarang

SMP PGRI Ampel - 2009

Boyolali

SMA 1 Boyolali - 2012

Boyolali

Satya Wacana Christian Universit Salatiga

Software Engineering
Informatika

Experience

Caraka

I am creating a custom app with Codeigniter 3. Which the main purpose is to simplify creating report in 3 form. In a PDF, Spreadsheet and .doc . The report is taken by a health care and saved on MySQL, the health care can later read the data from the web interface or view monthly data on spreadsheet.
